Mr. George Groat

Power Distribution Center, Inc.

10618 McCabe Road

Brighton, MI 48118

Dear George,

Just a note to tell you how pleased we are with the work you did at our plant. As you know, we had been plagued with electrical disturbances for quite some time. Our computers and other sensitive electronic equipment were being seriously affected and over a period of a time it cost my company thousands of dollars.

Command Alkon suggested we contact PDC. I was skeptical and doubtful that you could really help us. Others had tried but we still had problems. So when you said that you needed to survey our plant, I questioned what you would find but was genuinely surprised at how complete and necessary the survey was. We listened to your assessment of our situation and understood the necessity for property shielding our facility.

Since the completion of the installation, we have not had any further difficulties or losses. I simply wish to say thank you for doing what you said you would do and appreciate the confidence I have in knowing we are not experiencing any more problems

I would recommend Power Distribution Center (PDC) to anyone that is experiencing electrical disturbance problems and are concerned with unexpected shutdowns.

Again thank you,

Ron Anderson

Vice President
