Mr. George C. Groat

Power Distribution Center

10617 McCabe Rd.

Brighton, MI 48116

Dear Mr. Groat;

A pastor has to worry about a lot of things, but one of the things that I do not have to worry about now are problems with power surges. This is due in large part to your help and the equipment you supplied for our church through Power Distribution Center.

I want to thank-you for your involvement from beginning to end. You helped to assess our needs; specified equipment that was affordable and appropriate; and, supervised the electricians during installation.

I have been impressed with your dedication to not just selling a product, but seeing that the customer has an advocate. Even after the equipment was installed you were there to follow-up and answer our questions.

With the amount of investment we have in high-tech equipment, and the history of problems with our power quality, our investment has already begun to pay off.

I would highly recommend you to anyone who would ask. Perhaps these products are available through other suppliers, but your company's reputation and professionalism makes Power Distribution Center the company that insures they are rated, installed and maintained properly. It's great to be able to have confidence in both the equipment and the supplier.

We look forward to working with you again in the future.

Sincerely,

Rev. Dan J. McKean
